<p>CoinsPaid is in a crowded market with pretty tough competition. We identified 2 close competitors - (1) Electroneum (\$ETN) and (2) Swipe (\$SXP). Electroneum has offered the highest return ~115% & Swipe has consistently returned positive alpha for the past 16 days, reaching ~70%. This is well above market return of 19% for BTC and 30% for ETH. We believe CoinsPaid will compete well in the market, offering steady returns.</p>		 <p>Mr. Krupyshev has worked on significant BTC mining projects like Cex.io and Ghash.io. He is an active blockchain pioneer. He has founded Bitcoin Foundation Ukraine & Satoshi Square Kiev. He is immersed in crypto processing and likes observing the market & its trends.</p>

He has also worked as an Engineering Team Lead and as a Web Software Developer at Merkeleon Crypto Commerce Software.</p>																											
<p>The Stage I and Stage II private holdings has a vesting period of 12 months and 7 months respectively. The advisory holding is vested for 12 months, which is decent. The team holdings are vested over 24 months, which is a short period. However, the 4 months vesting period for the public round, 17 months for partners and 15 months for community & marketing are good. Overall, their vesting plan is decent, ensures commitment from business sponsors, limiting scope for token dumping and will be attractive to investors.</p>		<p style="text-align: center;">Tech Maturity Score 4.2/5</p>
