In the long run, it aims to be a fully community-owned and governed Defi protocol.</p> <p><b>About Token:</b> Utility and governance token MATRIX is built with a deflationary economic design. 50% of the platform trading fees will be allocated towards token buyback &amp; burn in order to offset rewards token emission.</p> <p>Total Supply: 100M   Circulating Supply: 3.5M</p>		<b>Finomena Score</b> ★★★★★ <b>Promoter Score 3/5</b>

<p>MatrixSwap with their unique vAMM and infinite on-chain liquidity, is one step ahead of its competitors. We identified 3 close competitors - (1) Perpetual Protocol (\$PERP), (2) PantherSwap (\$PANTHER), and (3) Dfyn Network (\$DFYN). The overall sector returns is below the average market returns, resulting in low sector score. Their prices have been consistent, although a drop has been observed in the last week of August. We believe MatrixSwap will compete well in the market, offering steady returns.</p>		<b>Joseph Liu (Founder)</b>  <p>Joseph Liu, the founder of Matrix Swap, has almost 10 years of experience across industries.</p> <p>He has expertise in Investment Analysis, marketing, consultation and blockchain.</p>
